

CHAPTER VII SUGGESTIONS

- Taking care of permanence of Sumatran Tiger, prey animal and its habitat is need cooperation of all party by professional and proporsional according to fundamental duty and its function. In consequence require to be done a construction and observation to activity of conservation NGO especially which deal with handling of conflict between human - tiger activity, this matter good for obtaining better result beside also to prevent the abuse of information / competence in the name of conflict handling.
- Need straightening law enforcement effort which is clear and continuously especially to overcome illegal uncovering area and other illegal activities in conservation area, like solving of case of illegal uncovering area in Way Kambas National Park.
- Require looking for effective communications and solution in order to buffalo herding problems in Way Kambas National Park area can be finished.
- Fisherman settlement in east coast of Way Kambas National Park need immediately done by a complete data, demarcation, effective observation system creation and construction.
- Require to be done an inner boundary settlement (zone boundary) especially to traditional exploiting zone where a lot of indigenous people live and stay in Bukit Tigapuluh National Park.
- Need construction, observation and communications continually to indigenous people in. Bukit Tigapuluh National Park in order to this indigenous people earns to partake to take care of area permanence. The permanence of BTNP area is connoting to preserve culture and life of indigenous people itself.
- Need to stop of opening of Sinaboy - Dumai highway which is through KKH Senepis. In this case the importance thing is consistently attitude from government in make decision, that is area which have been agreed to be KKH Senepis may not split by road which will destroy the target of forming the KKH Senepis.
- The important things is done several field activities which is effective that done by staff of related UPT which are relevant on conservation effort. Like continuing expedition of Way Kambas I, combined operations etc.
