

Alternative Building Materials

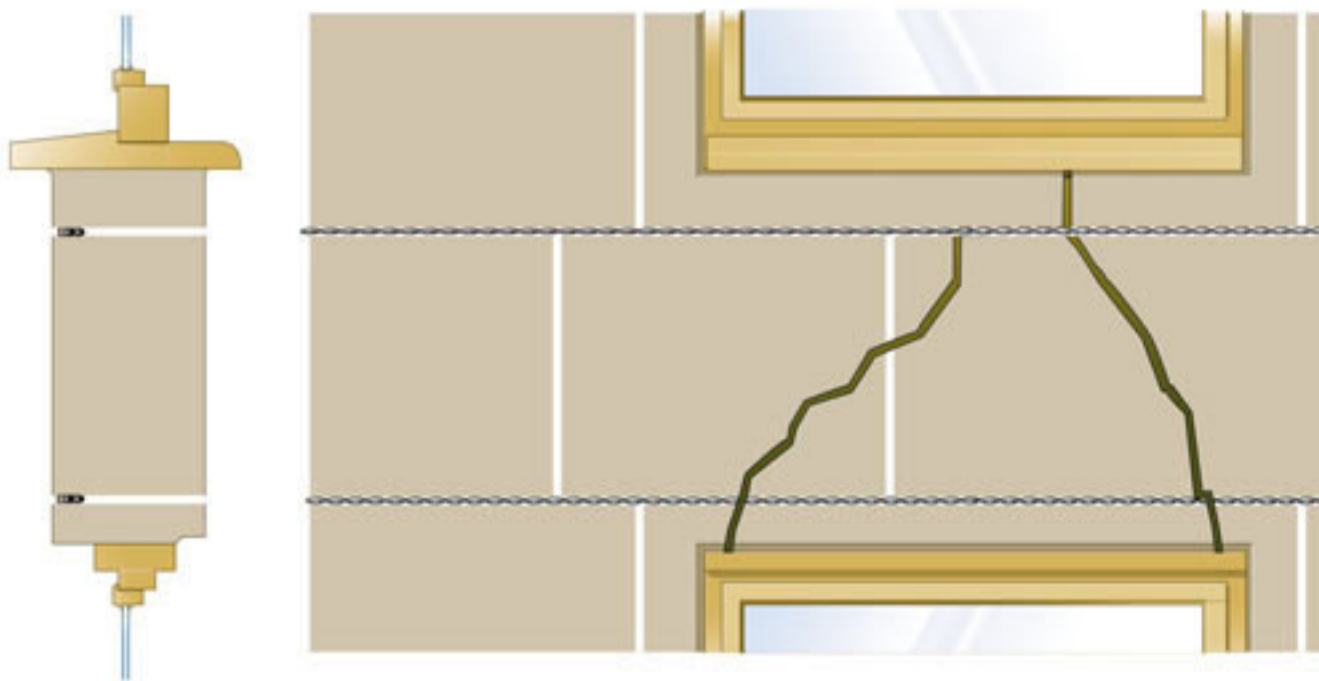

Thor Helical Remedial Alternative Building Materials

For simplicity, most of the Thor Helical Standard Details show installation into conventional brickwork. However, it should be noted that the system works equally well in all forms of masonry construction such as random stone, ashlar stone, concrete, concrete block, rubble fill, flint etc.

Sample diagrams showing details in stonework

Restraining a bowed stone wall using Thor Drive Fix Restraint Ties into Joist end

Repair of Failed Lintels in stone walls using Thor Heliforce bars
