

My name is _____

Food chains

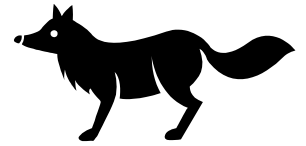

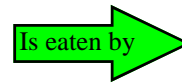

This is a food chain

Grass

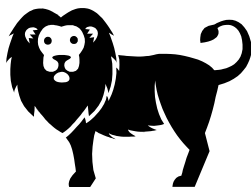

Rabbit

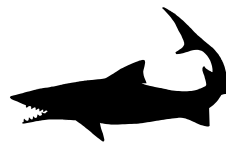

Fox

Grass makes its own food. It is called a **producer**. The rabbit eats the grass. The rabbit is called a **consumer**. The fox in turn eats the rabbit. It is also a **consumer**.

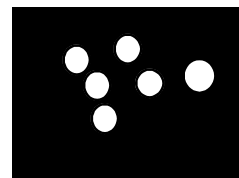

On the back of your sheet Draw out a food chain for a lion and for a bear - the pictures below may help!

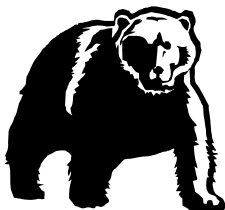

Lion

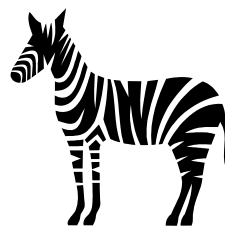

Fish

Plankton

Bear

zebra

Grass

See if you can think of a food chain for a tiger and for a giraffe

If you have a problem ask a keeper!
